

Task1:

```
1      package com.company;
2
3      public class Q1Main {
4      public static void main(String[] args) {
5          QuestionOne q1;
6          q1 = new QuestionOne();
7          q1.A = 12;
8          q1.b = 12;
9          q1.c = 12;|
10         q1.methodOne( a: 12);
11         q1.methodOne();
12         System.out.println(q1.methodTwo(12));
13         q1.c = q1.methodTwo();
14     }
15 }
```

Line7: Can't change the value of final integer

Line8: Can't access a private variable out of its class

Line10: Can't access a private method out of its class

Line11: Can't access a private function out of its class and missing parameter

Line12: extra parameters given to methodTwo

Line13: Can't access a private method out of its class

Task2:
